

PSYCHOPHARMACOLOGY

And Substance Abuse Newsletter

Division 28- American Psychological Association

Summer 1997

Volume 30, No. 2

From the President's Desk...

Usually the President uses this column to talk about membership. This time, however, it's being used to give you a chance to talk to the President as well as the entire Executive Committee. During the CPDD meeting in Nashville, the EC met and decided to insert a one page questionnaire in the summer newsletter in order to: 1) understand how the membership values things that the division provides, 2) what things we need to beef-up, and 3) what initiatives we need in order to better serve the membership. The questionnaire appears following this brief statement. Please take a minute to complete it, and return it to Anthony Liguori at: Dept. of Pharmacology, Bowman Gray School of Med, Med Center Blvd, Winston-Salem, NC 27157, or at aliguori@bgsm.edu. A Copy of the questionnaire has been circulated to those of you on the e-mail list, and you may prefer to responded to it. In any case, the EC hopes to discuss your responses at the EC meeting at the APA Convention in Chicago, so please give us your responses and you comments as soon as possible. I'm looking forward to seeing you all at the APA convention. Charles Frances has put together a dynamite program, highlights of which are excerpted in this newsletter. So 'til then, Marlyne Kilbey P.S. As this is my last Presidential Column I want to say "thanks" to all of you who have worked so hard this year on Division and APA issues. You are a great bunch!

Questionnaire

Please look over the activities the division supports and tell us how important they are to you. Also, Please take a minute and answer the questions about yourself. On a scale where 0 indicates not at all important and 7 is very important, how important to you are the following functions of Division 28 and APA.

1. The Division 28 program as a scientific forum for yourself:
2. The Division 28 program as a scientific forum for students whose research you direct:
3. The Division 28 program as a scientific forum for students in your training program:
4. The Division's and APA's activities in support of the use of animals in research:
5. The activities of APA's CARE committee:
6. The Division's and APA's support of the Journal of Experimental and Clinical Psychopharmacology:
7. The Division's continuing education activities and programs:
8. The Division Newsletter:
9. The opportunity to have division people on APA's Board of Scientific Affairs:
10. The opportunity to have division people on APA's Board of Educational Affairs:
11. The opportunity to have division people on APA's Board of Directors:
12. The opportunity to have division people on APA's Council of Representatives:
13. Division Awards:

Committee on Animal Research and Ethics (CARE)

The main focus of discussion at the Spring 1997 meeting of CARE was the logistics of the initial segment of an educational video project which the Committee intends to procedure. The primary purpose in making the video(s) is to make it available to high school psychology and science classes to enhance student appreciation and understanding of scientific psychology in general, and the importance of animal research in psychology in particular. Thus, the format of the material will be on that is most conducive to integration into classroom lessons, and in keeping with this plan will consist of 5-7 minute segments which will highlight the importance of animal research in psychology. The purpose of such educational material is not just to counter misinformation about animal research and to offset and reverse the often adverse, hostile, and incorrect assumptions and attitudes towards animal research, propagated by groups opposed to the use of animals in research and teaching, but also to educate the public about psychological science, to foster interest in psychological research issues and to promote accurate understanding of the profession. Earlier this Spring CARE received funding from the APA Council of Representatives for the production of an initial pilot segment of this video-tape, in the upcoming year. Both current and past members will be involved in the production of this educational material which will be first distributed through the Teachers of Psychology in Secondary Schools (TOPPS).

Other on-going projects that CARE reviewed at its recent meeting included: (1) finalizing the document entitled, "Guidelines for the Use of Animals in School Science Behavior Projects" which will also be forwarded to TOPPS for incorporation into the document "Ethical Guidelines for the Teaching of Psychology in Secondary Schools." (2) reviewing plans for the APA Convention this year as well as future Convention programming. During the 1997 APA Annual Convention in Chicago, a series of three talks based on the theme, "Linking Animal and Human Behavior," that were developed by CARE and co-sponsored by BSA and Division 25, will be presented. This presentation will be publicized in the "Focus on Science" literature and will be co-listed by Divisions 3, 6, and 28. CARE will also be co-listed on a Psi Chi address being presented by the current Chair of CARE, Roger K. R. Thompson, Ph.D. The Committee decided that it would continue with this theme and format for convention programming in the years to come, thereby continuing to forge better ties with relevant divisions, as well as making animal research more accessible to the whole psychological science community.

Questionnaire Continued.....

14. The opportunity to be recognized as a Fellow of the Division:
15. APA's support through lobbying of science:
16. APA's support through lobbying of education and training:
17. APA's support through lobbying of practice issues:
18. The opportunity to network with other psychologists:
19. Opportunities for professional development through committee, board, and other types of service:
20. Is there anything not included that the Division and/or APA membership provides for you?

21. Which annual national scientific meetings do you typically attend:
22. Please provide comments regarding why you do or do not attend the APA Convention:

Please also include a brief statement on any activities that you would like to see initiated or strengthened in the Division.

Finally, how long have you been an APA member _____, a member of Division 28 _____, what other divisions do you belong _____, and what other professional societies _____.

Thanks! Marlyne Kilbey

Division 28 Program Agenda

Saturday 16 August 1997

- 9:00-9:50 Invited Address: "Developmental Neurobehavioral Pharmacology," Travis Thompson (Chair: Charles France)
- 10:00-11:50 Symposium I: "Animal Models of Developmental Disabilities," D.A. Cory Shleeta, Pippa Loupe, Francis Crinella (Chair: Alan Poling)
- 12:00-12:50 Invited Address (New Fellow): "Human Behavioral Pharmacology of Nicotine," Ken Perkins (Chair: Harriet de Wit)
- 1:00-2:50 Symposium II: "Measurement of Psychotropic Drug Effects in Developmental Disabilities," Robert Sprague, Michael Aman, Dean Williams (Chair: Johannes Rojahn)
- 3:00-3:50 Presidential Address: "Psychopharmacology: Past, Present and Future," Marlyne Kilbey (Chair: Lewis Seiden)
- 4:00-5:50 Symposium: "Past Presidents of Division 28," Victor Laties, Joseph Brady, Murray Jarvik, Charles Schuster (Chair: Alice Young)
- 6:00-6:50 Division 28 Business Meeting
- 7:30 Executive Committee Dinner

Sunday 17 August 1997

- 9:00-10:50 Symposium III: "Neuropsychopharmacology of Self-Injury", Stephen Schroeder, Mark Lewis, Michael Cataldo, Frank Symons (Chair: Stephen Schroeder)
- 11:00-11:50 Invited Address: (Young Psychopharmacologist Award): "Acute Behavioral Effects of Benzodiazepine Ligands in Humans", Craig R. Rush (Chair: William Woolverton)
- 12:00-12:50 Invited Address (New Fellow): "Cognitive Effects of Marijuana and Other Drugs", Robert Block (Chair: Stephen Fowler)
- 1:00-1:50 Invited Address (Solvay Award): "Drug Abuse as Adujective Behavior", John Falk (Chair: Marlyne Kilbey)
- 2:00-2:50 Invited Address (Levitt Award): "Selectivity of Drug Effects on Ethanol Self-Administration", Keith Shelton (Chair: William Woolverton)
- 3:00-3:50 Invited Address (New Fellow): "Sleepiness and the Sedative and Performance Disruptive Effects of Ethanol", Tim Roehrs (Chair: Charles France)
- 4:00-5:50 Symposium IV: "Pharmacotherapy of Major Psychiatric Disorders in Developmental Disabilities", William MacLean, Jeffrey Fahs, Christopher McDougale (Chair: Travis Thompson)

Monday 18 August 1997

- 9:00-9:50 Invited Address (New Fellow): "Opponent Processes: Effects of Morphine in Hamster Locomotor Activity", Paul Schnur (Chair: Nancy Ator)
- 10:00-11:50 Symposium: "Laboratory Models of Impulsivity: Application to Drug Abuse", A.W. Logue, Jerry Richards, Gregory Madden, Suzanne Mitchell, Don Cherek (Chairs: Harriet de Wit and Jerry Richards)
- 12:00-12:50 Invited Address (New Fellow): "Behavioral and Physiological Effects of Xanthines in Nonhuman Primates", Leonard Howell (Chair: James Zancy)
- 1:00-1:50 Invited Address: "Crack Cocaine: Science and Policy", Dorothy Hatsukami (Chair: Marlyne Kilbey)
- 2:00-3:50 Poster Session
- 5:00-5:50 Division 28 Social Hour
- 6:00-6:50 Joint Social Hour with Division 3

Division 28 Presentation Outline

1. Saturday 16 August, 9:00-9:50 1997, Invited Address

"Developmental Neurobehavioral Pharmacology," Travis Thompson, Vanderbilt University, Nashville, TN

Chair: Charles P. France, Louisiana State University Medical Center, New Orleans, LA

2. Saturday 16 August 1997, 10:00-11:50, Symposium I: "Animal Models of Developmental Disabilities"

Topic Overview: "Animal Models of Disabilities of Brain and Behavioral Development", Deborah A. Cory-Slechta, B.J. Brockel, Dept. of Neurobiology and Anatomy, University of Rochester School of Medicine, Rochester, NY

"The Behavior and Neurochemistry of the Methylazoxymethanol-Induced Microencephalic Rat", Pippa Loupe, Stephen Schroeder and Richard Tessel, Schiefelbusch Center on Human Development, University of Kansas, Lawrence, KS

"Dopaminergic Structures, Problem Solving and the Psychopharmacology of Mental Retardation", Francis Crinella, Dept. of Pediatrics, Division of Child Development, University of California at Irvine, Irvine, CA

Chair: Alan Poling, Dept. of Psychology, Western Michigan University, Kalamazoo, MI

3. Saturday 16 August 1997, 1:00-2:50, Symposium II: "Measurement of Psychotropic Drug Effects in Developmental Disabilities"

Topic Overview: "Psychotropic Drug Effect Measurement in People with Mental Retardation: An Evaluation", Robert Sprague, Dept. of Kinesiology, University of Illinois at Urbana-Champaign, Champaign, IL

"Standardized Scales for Measuring Psychotropic Drug Effectiveness in Developmental Disabilities", Michael Aman, the Nisonger Center UAP, Ohio State University, Columbus OH

"Measuring Drug Effects in Mental Retardation: Observational Laboratory Methods", Dean Williams and Richard Saunders, Parsons Research Center, University of Kansas, Parsons, KS

Chair: Johannes Rojahn, The Nisonger Center UAP, Ohio State University, Columbus, OH

4. Sunday 17 August 1997, 4:00-5:50, Symposium IV: "Neuropsychopharmacology of Self-Injury"

Topic Overview: "Self-Injury: Behavioral and Neurochemical Mechanisms", Stephen Schroeder, Schiefelbusch Center for Life Span Studies, University of Kansas, Lawrence, KS

"Neuropsychopharmacology of Repetitive Behavior Disorders in Individuals with Mental Retardation", Mark Lewis, University of Florida, Gainesville, FL and James H. Bodfish, Human Development Research and Training Institute, Western Carolina Center, Morgantown, NC

"A Biobehavioral Approach to Diagnosis and Treatment of Severe Self-Injury", Michael Cataldo and Wayne Fisher, Kennedy-Krieger Institute, Johns Hopkins University, Baltimore, MD and Charles Mace, Seashore Children's Hospital, University of Pennsylvania, Philadelphia, PA

"Opioids and Self-Injury by People with Developmental Disabilities", Frank Symons and Travis Thompson, John F. Kennedy, Vanderbilt University, Nashville, TN

Chair: Stephen R. Schroeder, Schiefelbusch Institute for Life Span Studies, Dole Human Development Center, University of Kansas, University of Kansas

5. Sunday 17 August 1997, 4:00-5:50, Symposium IV: "Pharmacotherapy of Major Psychiatric Disorders in Developmental Disabilities"

Topic Overview: "Psychopathological Diagnosis, Genetic Disorders, and Pharmacotherapy in Developmental Disabilities", William MacLean Dept. of Psychology, University of Wyoming, Laramie, WY

"Neuroleptic Medications for People with Mental Retardation and Schizophrenia", Jeffrey Fahs, Dept. of Psychiatry, University of North Carolina, Chapel Hill, NC

"SSRI's and Treatment of Patients with Pervasive Developmental Disabilities", Christopher McDougale, Clinical Neuroscience Unit, Yale University, Child Study Center, New Haven, CT

Chair: Travis Thompson, John F. Kennedy Center, Vanderbilt University, Nashville, TN

A second symposium that was organized, in part, to celebrate the Golden Anniversary of Divisions in APA will bring together four Past presidents of Division 28 for a look back, as well as forward at Psychopharmacology and Substance Abuse.

"Behavioral Pharmacology Through the Years", Victor G. Laties, University of Rochester Medical Center, Rochester, NY

"Behavioral Pharmacology and the Academic/Military/Industrial Complex", Joseph V. Brady, Johns Hopkins University School of Medicine, Baltimore, MD

"Thirty Years of Psychopharmacology", Murray E. Jarvik, University of California, Los Angeles, CA

"The History of Research on Behavioral Pharmacology of Drug Abuse", Charles R. Schuster, Wayne State University School of Medicine, Detroit, MI

Chair: Alice M. Young, Wayne State University, Detroit, MI

Call For Nominations

Nominations Invited for the 1998 Robert and Phyllis Levitt Award

The Division of Psychopharmacology and Substance Abuse (28) of the American Psychological Association (APA) announces the continuation of an award program to recognize annually the best doctoral thesis in psychopharmacology and substance abuse. The award is supported by a contribution from Robert and Phyllis Levitt and the American Psychological Foundation. The Robert and Phyllis Levitt Award, consisting of a certificate of recognition and a cash award of \$1,000, will be presented at the 1998 APA meeting in San Francisco.

Students who completed a doctoral program during calendar years 1996 or 1997 are eligible for nomination. Each must be nominated by a member or Fellow of Division 28, and the nomination must be based on a completed dissertation in psychopharmacology or substance abuse. Nominations must include (1) the nominee's resume or Curriculum Vitae, (2) a copy of the dissertation on which the nomination is based, (3) a statement from the sponsor in support of the nomination, and (4) any additional supporting documents. Forward all materials to: Dr. William L. Woolverton, Department of Psychiatry and Human Behavior, University of Mississippi Medical Center, 2500 North State Street Jackson, MS 39216. Materials must be received no later than January 1, 1998.

Nominations Invited for the 1998 Wyeth-Ayerst Young Psychopharmacologist Award

The Division of Psychopharmacology and Substance Abuse (28) of the American Psychological Association (APA) announces the continuation of an award program to identify and recognize promising young psychopharmacologists.

The Wyeth-Ayerst Young Psychopharmacologist Award will be presented at the 1998 APA meeting in San Francisco and will consist of a cash award of \$500, an engraved plaque, and travel funds for the recipient to attend and present an address at the APA meeting. The purpose of the award is to honor each year a young scientist doing original, meritorious work in psychopharmacology and to encourage excellence in research at the interface between the disciplines of pharmacology and psychology.

Persons who are no more than five years past the date of receipt of the doctoral degree are eligible for consideration. Candidates must be nominated by a member or Fellow of Division 28, and the nomination must be based on work in an area of psychopharmacology, behavioral pharmacology or substance abuse. Nominations must include (1) the nominee's resume or Curriculum Vitae, (2) selected reprints or manuscript(s) describing the research on which the nomination is based, (3) a statement from the sponsor in support of the nomination. Forward all materials to: Dr. William L. Woolverton, Department of Psychiatry and Human Behavior, University of Mississippi Medical Center, 2500 North State Street Jackson, MS 39216. Materials must be received no later than January 1, 1998.

Nominations Invited for the 1998 Solvay Award

The Division of Psychopharmacology and Substance Abuse (28) of the American Psychological Association (APA) announces an award program to identify and recognize outstanding research on affective disorders by senior investigators.

The Award for Outstanding Basic Psychopharmacological Research on Affective Disorders, sponsored by Solvay, will be presented at the 1998 APA meeting in San Francisco, and will consist of a cash award of \$2,500, an original sculpture, and an invitation to attend and address the APA meeting. The purpose of the award is to honor each year a senior-level scientist who has contributed original, meritorious work on the psychopharmacology of affective disorders.

Candidates must be nominated by a member or Fellow of Division 28, and the nomination must be based on career contribution in the area of psychopharmacology/behavioral pharmacology and affective disorders. Nominations must include (1) the nominee's resume or Curriculum Vitae, (2) reprints or manuscript(s) describing the research on which the nomination is based, (3) a statement from the sponsor in support of the nomination. Forward all materials to: Dr. William L. Woolverton, Department of Psychiatry and Human Behavior, University of Mississippi Medical Center, 2500 North State Street Jackson, MS 39216. Materials must be received no later than January 1, 1998.

1997 APA GOLF CLASSIC

Oak Brook Hills Resort, Oak Brook, Illinois
(To be held during the APA Annual Convention)

You are invited to participate in the first annual APA Golf Classic. The tournament will take place on Monday, August 18, 1997 in conjunction with the 105th Annual Convention of the American Psychological Association, to be held in August of this year.

The format for the tournament will be a foursome scramble (Captain's Choice). Teams will be balanced by tournament management according to handicap and a special handicapping system will be applied to each team's gross scramble score. If players do not have an established USGA handicap, please submit an average of your last five scores and a handicap will be assigned to you.

The tournament will include a buffet luncheon, a cocktail reception, and an awards banquet with buffet style dinner. Awards will be given to the first, second, and third place foursomes.

REGISTRATION DEADLINE IS JULY 18th! It is recommended that you register early as attendance is limited, and registration, open to all APA Convention registrants, is on a first-come, first-served bases. The tournament is limited to the first 144 players who register.

American Academy of Addiction Psychiatry Review Course on Addiction Psychiatry

February 7-8, 1998

Ritz Carlton

Kansas City, Missouri

CME credits available

The course is an excellent overview of the addiction field. Registration is open to all health care professionals. For additional information contact 913-262-6161 or addicpsy2@aol.com.

Topics include: Nicotine; Opioids Pharmacology and Treatment Issues; Alcohol; Sedative-Hypnotics; Cocaine and Amphetamines; Adolescents and Substance Abuse; Psychotherapy and Psychosocial Treatments of Substance Abuse; Substance Abuse and the Family; Dual Diagnosis; Epidemiology of Psychoactive Substance Use Disorders and Etiology of Substance Use Disorder.

Call for Fellowship Nominations

The Executive Committee seeks nominations for Fellow status in Division 28. Any member who has made outstanding contributions to psychopharmacology or substance abuse is eligible.

If you wish to be considered yourself or nominate someone else for this APA honor, send your/his/her CV to:

Marilyn E. Carroll, Ph.D.

Psychiatry Department

University of Minnesota- Box 392 UMHC

420 Delaware St., S.E.

Minneapolis, MN 5545

Voice-(612) 626-6289

fax-(612)626-8935

Research Associate

Department of Psychiatry

University of Mississippi Medical Center

Develop, implement and publish research relating to the behavioral neuropharmacology of abused drugs, particularly drug self-administration and drug discrimination in non-human primates. The relationship between in vitro or in vivo neuropharmacology and behavioral effects is of central interest. Ph.D. in pharmacology or neuroscience required. Salary commensurate with experience. Send c.v., statement of research goals, and names of three references to: William L. Woolverton, Ph.D., Department of Psychiatry and Human Behavior, The University of Mississippi Medical Center, 2500 N. State Street, Jackson, MS, 39216. EOE, M/F/D/V.
Phone: 601-984-5898
FAX: 601-984-5899

Postdoctoral Research Fellowship in Substance Abuse

One position is available in a stimulating, productive laboratory. Responsibilities are in the behavioral economics of drug self-administration. Applicants must have completed doctoral training in psychology or pharmacology and have research experience. Minorities are encouraged to apply. Competitive stipends. Send letters of interest, vitae, and letters of reference to Warren K. Bickel, Ph.D., Human Behavioral Pharmacology Laboratory, Department of Psychiatry, 38 Fletcher Place, Burlington, Vermont 05401-1419.

Postdoctoral fellowship in Behavioral Pharmacology/ Toxicology Research at the Medical College of Virginia

Opportunity exists for a postdoctoral fellowship to conduct laboratory animal studies on the behavioral pharmacology/toxicology of abused drugs. Possible research directions include inhalation studies of abused solvents, studies of drug tolerance and dependence, drug discrimination and self-administration studies, nonhuman primate behavioral pharmacology, applications of genetic engineering and such other research areas as the fellow would be interested in. Candidates are sought with backgrounds in animal research, with training in the behavioral or pharmacological sciences. A Ph.D. or equivalent is required. The fellowship is part of a large and active pre- and post-doctoral training with many opportunities for research collaboration and interactions with other faculty and trainees working in drug abuse research. Interested persons should send a letter of application to Dr. Robert Balster, Department of Pharmacology and Toxicology, Box 908310, Medical College of Virginia, Richmond, VA 23298-0310.

PSYCHOPHARMACOLOGY

And Substance Abuse Newsletter

Division 28- American Psychological Association

DIVISION 28

EDITORIAL POLICY

Psychopharmacology and Substance Abuse Newsletter is a quarterly publication of Division 28 of the American Psychological Association. It is devoted to keeping its members informed about the activities of Division 28 and to the news and comments concerning all aspects of Psychopharmacology and Substance Abuse. Comments, brief articles (1,000-2,000 words), and letters are welcome and will be considered for publication as space allows. Articles, comments, announcements, and advertisements should be sent to:

Craig R. Rush, Ph.D.

Division 28 Newsletter Editor

Submissions should be submitted in both hard copy (letter quality) and diskette. FAX submissions are discouraged.

Deadlines are March 15 (Spring), June 15 (summer), September 15 (Fall), and December 15 (Winter).

JOHNS HOPKINS SUBSTANCE ABUSE RESEARCH

Postdoctoral human research positions available in a stimulating and productive environment with excellent clinical and research resources. **Human Laboratory Behavioral Pharmacology.** Design and implement controlled laboratory research on the behavioral, subjective, and physiological effects of psychoactive drugs for abuse liability testing and medications development. Drug classes under study include: opioids, cocaine, anxiolytics, caffeine, nicotine. Research background and experience required. **Applied Research in Behavioral Treatment of Substance Abuse.** Develop and evaluate treatment interventions for opioid and cocaine abusers and cigarette smokers. Sites include methadone, outpatient and smoking cessation clinics. Minorities encouraged. **USPHS** stipend levels based on experience. Send vita, letter of interest, and names/phone of 3 references to George E. Bigelow, Ph. D., Roland R. Griffiths, Ph. D., or Maxine L. Stitzer, Ph. D.; BPRU Behavioral Biology Research Center; 5510 Nathan Shock Drive; Johns Hopkins Bayview Campus; Baltimore, Maryland 21224-6823. (410)
